## Fetal Alcohol Spectrum Disorders in Adopted and Traumatized Children: Recognizing the Symptoms, Learning Effective Interventions.

*Professional Training: **6 hours** Continuing Ed Credits*

*Friday, November 13, 2009*

*9 AM – 4:30 PM, including a networking lunch, 12 - 1  
Lancaster, PA*

- Increase awareness and knowledge about the prevalence and negative consequence of Fetal Alcohol Spectrum Disorders (FASDs) in the domestic and international populations of adopted/foster children.
- Gain up-to-date knowledge regarding direct effects of alcohol and drug exposure on developing brain structures using PET/fMRI and SPECT studies and how effects translate to negative cognitive, emotional, and behavioral development.
- Learn 3-5 strategies or interventions helpful in the treatment of adopted/fostered children who have FASDs and gain integrated knowledge concerning the accurate diagnosing of FASDs to avoid mismatched treatment, which can worsen symptoms.
